Passport™ Work Table

A workspace for any place

### **Passport Work Table**

Your home office. The living room. A studio bedroom. Pulled over to a comfortable office nook. Grouped together for a study session. Anywhere can be your perfect workspace with a desk that moves with you. Height-adjustable, with an intentionally compact lightweight design, Passport is the just-right table for the moments you need it.

## Make anywhere work for you

Passport features an untethered height-adjustable design, so you can move your table wherever you need to. Its single-column base and lightweight design make it all the easier: pull it up to wherever you're working and, just like that – an instant workspace.

## Comfort at any height

Passport's simple, intuitive lever allows you to smoothly adjust your table for a range of heights, giving you flexibility between sitting and standing and offering comfort at any posture. With a 458mm range, Passport can find a spot that works in many settings.

Passport's surface is 686 mm x 508 mm, which is enough surface space for your laptop, notebook and favourite beverage.

Featuring an untethered height-adjustable design, Passport's pneumatic lift provides height-adjustability without needing to plug into a power source.

Add an optional Privacy Screen for warmth and boundary. An optional Bag Hook provides a spot to place your bag. Available in a variety of colours.

### Small footprint, big function

Passport is intentionally compact in design, large enough for the essentials and small enough for tight spaces. With enough surface space for a laptop, notebook and your favourite beverage. Add the optional Bag Hook or screen to make it work even harder – all without increasing the footprint.

Passport is introducing a new, plywood edge. It's available paired with a variety of the surface finishes.

# Materials

## Passport Work Table
